WELCOME TO FINDLAW REVIEW PLATFORM

Upon logging in, you will be taken to your personal dashboard. At this point, you will be able to see reviews that have been left across the web. You may not see any at this point and that's OK! As reviews are left they will populate in this tab for you to evaluate.

LET'S GET STARTED!

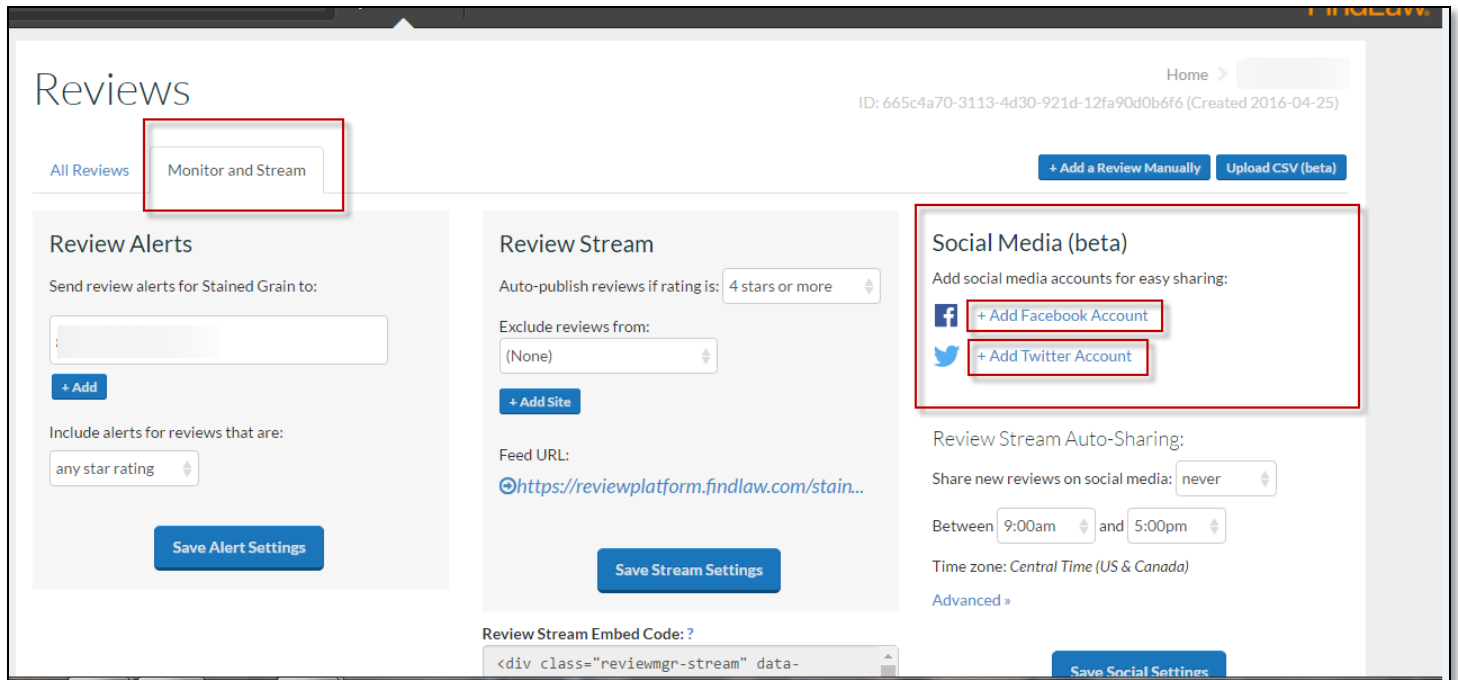

The following steps will guide you through monitoring your reviews and setting up customized reporting. Clicking on the reviews tab allows you a quick view into the reviews that have been left across multiple review sites.

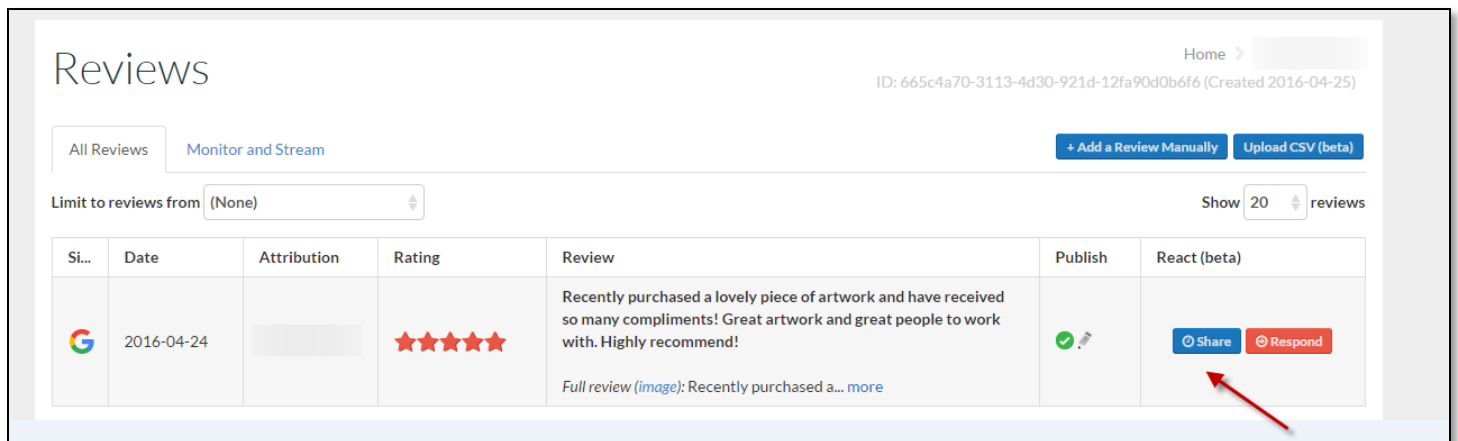

Within this dashboard you have the ability to respond to your reviews and share reviews on your social media pages. To respond to a review, simply click the red "respond" button. This will take you to the necessary review site where you will then be able to respond to that review (note: some review sites require you to login to that particular profile)

To share a review, you will first need to connect the social media profiles you'd like to share to. First, click on the "monitor and stream" tab and move over to the "social media" section. Here you will input the proper links for your social media pages including Facebook and/or Twitter. If you are not logged into your social media accounts, you will need to do so at this step.

Next, click back into the "all reviews" tab and click the blue "share" button next to the review you'd like to share. You will then be prompted to post a comment and schedule the post to hit your page(s). Select "submit" and you're done!
